Enable Deskband programmatically

Asked 5 years, 11 months ago Modified 3 years, 10 months ago Viewed 197 times

We have developed a custom Deskband by implementing the IDeskBand interface.

As a part of the deployment strategy we would like to enable the Deskband automatically.

Can anyone provide guidance on how this could be achieved, either programmatically or other?

winapi deskband

Deskbands are deprecated and not recommended for use any more. Are you sure this is the best approach? – Jonathan Potter Nov 17, 2016 at 23:13
